

Student-Athlete Rider Permission Slip

There are several sports that practice off-campus during the spring season. They include golf, swimming, softball, baseball and track. We are asking that parents specifically give their child permission to ride with other students if they wish to. All drivers must be legally allowed to drive others and receive permission from their parents to drive others.

I, _____, give my permission for my son or daughter to ride with any of the following teammates to or from games or matches where there is no school transportation available.

- 1.
- 2.
- 3.
